The idea for this album came as a result of people, having seen me perform a solo set, asking if there was any way they could get hold of recordings of my songs so that I can benefit them. I recorded these sessions live in one week from 4-10 January 2015, in 10 and 16 January 2015, with no overdubs, no overdubs and no post-production. It was recorded directly from the tape at Southern Records, Kings Cross, and passed to Daniel in Germany. I pulled some of my own favourite songs from my back catalogue, mostly right up to a brand new one, therefore being. Hope you enjoy listening.
