

## King Size Soul King Curtis & The Kingpins

With the King and his mob of talent, you've heard what the greatest soul ever had to say. Now you've heard a new King Curtis recording. It's been around and it's been in the soulful scene since the 1950s, but it's still the same great soul, and his constant search for new musical ideas, in fact with each recording King Curtis makes a new sound. And it's still there, there for your ears to hear.

Consider this new effort by King Curtis and The Kingpins. It's a new sound, it's a new sound, and it's still there, there for your ears to hear. It's a new sound, it's a new sound, and it's still there, there for your ears to hear. It's a new sound, it's a new sound, and it's still there, there for your ears to hear.

It would be difficult for anyone except King Curtis to make these two records sound fresh and new again. But King does, more than any other soul singer. Sometimes, instead of the old soul song and the old soul singer, he's got a new sound and a new sound. And the old soul song and the old soul singer, he's got a new sound and a new sound. And the old soul song and the old soul singer, he's got a new sound and a new sound.

The album proves again, if any is needed, that there is only one King in soul music. He's the one who's been there since the beginning, and he's still there, there for your ears to hear. He's the one who's been there since the beginning, and he's still there, there for your ears to hear. He's the one who's been there since the beginning, and he's still there, there for your ears to hear.

He'll always "King Size Soul" in your ears. So when you hear King Curtis, think you're hearing a beautiful gift. He's got your great soul and he's in "Soul Country."
