

Miles Davis, Miles

Johnny Hartman, Miles

Miles Davis, Miles

COLTRANE

After repeated listening to this album I felt that any comments here would be unnecessary. After all, Miles Coltrane and his men have something to say musically and the first jazz lovers will understand the music without detailed explanation. There is no need for almost anyone on the earth of "Miles" music... there will be plenty of articles given in newspapers and magazines about the nature of this album.

—MILES COLTRANE
