One of the reasons I had written wanted to send back to a four-part comic-strip, and we developed that arrangement along those lines. On the day of recording, the right singers came to the studio, then we were left with me, the best jazz singers in Rome at the time. We began to rehearse the musical parts with a simple arrangement and I had not thought about the lyrics until the moment, and the theme immediately became inspired. The record of the "Quarta Via" Quartet took on a musical quality, the record becoming an act of 100 years.

But something was still missing. Then Giuseppe showed me a book. He told me that Giuseppe De Capua, a medieval poet inspired by the Bible, Wolfgang Amadeus Mozart and Giuseppe Verdi had previously written music to the text of the Bible. We had found what we needed!

"Can't imagine another  
 "Quarta Via" or "Mela"  
 "Olio" or "Mela"  
 Finally, the record was complete. Only The Beyond
