 Recording: STUDER A800 Analogue Stereo

For more technical information see inside.

STUDIO  KONZERT

At a time when everything seems to be very much the same and hence almost interchangeable I think it is interesting and important to record this with something special and unique. Recording a live concert using analogue equipment allows one to capture the magic of the moment.

Not only for the musicians but also for the very first listener - the recording engineer - it's not about being oneself in a series of different takes but about concentrating on producing the best possible performance NOW and preserving it for the future. There are no re-takes or second chances for either the performers or the engineer and his delicate tonal balancing act.

Philipp Nick, Tannenberg
