Ella Fitzgerald: Let No Man Write My Epitaph

Format: 2LPs 45rpm / standard sleeve

Manufacturer: Acoustic Sounds

Original label: Verve

Release date: 05.09.2013

Considered one of Ella's greatest recordings, she's backed on this 1960 release by pianist Paul Smith. "Let No Man Write My Epitaph" was a 1960 Hollywood movie featuring Fitzgerald. The album hits at a depth of emotional understanding that critics often complained was missing in Ella's reading of jazz lyrics, and once again establishes her as one of the supreme interpreters of the Great American Songbook.
