Released September 17, 2001

Yes, that's right, "Kind of Blue", the most successful Jazz album in history is back in print from Classic Records. To commemorate the official introduction of Classic Quiex SV - Super Vinyl, we thought it appropriate that "Kind of Blue" should be one of the titles to debut on the new vinyl formulation. We have also taken the opportunity to reissue "Kind of Blue", as it should have been in 1959 - completely at the proper speed!
