Released April 14, 2009

Dusty 45/33 - From Casino Royale, everyone's favorite track on this highly collectible album, "The Look of Love" is sung by the silky and sultry voice of Dusty Springfield at her peak. This is a comparison disc cut at 33 1/3 rpm on one side and at 45 rpm on the other. The amount of information and level on both sides is the same with the only difference being the speed at which the lathe was travelling during cutting. The difference is that a cartridge can better track the 45 rpm side compared with the 33 rpm side and the difference is worth changing the speed on your turntable - at 33 Dusty sounds alive, at 45 she is in the room with you! Available now on Classic Records \*Clarity Vinyl SVP-II 200g.
