John Coltrane: Coltrane (45rpm-edition)

Format: 2LPs 45rpm / gatefold sleeve

Release date: 15.10.2009

Recorded over the course of three months in 1962, "Coltrane" was John Coltrane's third album for Impulse, but his first for the label devoted entirely to his regular working group. It was also the first album on any label to showcase what came to be known as the classic John Coltrane Quartet. That group – with McCoy Tyner on piano, Jimmy Garrison on bass and Elvin Jones on drums – established itself in its four years of existence as one of the most influential ensembles in jazz, and one of the most popular as well. Coltrane documents its genesis.
