Holly Cole explores a number of styles on her second album, Don't Smoke in Bed, without overreaching her grasp. Adding pop, blues, country, and a French ballad to her standard, low-key jazz, Cole demonstrates that not only does she have impeccable taste, but she has the talent to make all of the material sound convincing. This is an all time audiophile favorite, cut from the original master on the Bernie Grundman all tube cutting system and pressed on Classic's Clarity SV-P 200g as a Four Discs 45rpm Box Set.
